

# PCjr Club Newsletter

Portland, Oregon

6 Dec 90  
Robert Mueller - Pres  
8701 NE Tillamook  
Portland, OR 97220

## FINAL EDITION

The meeting came to order with 14 members present. Topic for the night was dissolution of the club.

Many comments were made about the club's usefulness and the help that many members received. Discussion carried on for some time. Members were reluctant to think of the club's demise, but nobody volunteered to become an officer. When the issue was finally brought to a vote, the members present decided to dissolve the Portland PCjr Club. No one thought to count the votes but it appeared to be almost unanimous.

Everyone was interested in continuing some sort of relationship. Bob Mueller and some others offered to continue their technical support. A current membership roster is enclosed with this newsletter. Stay in touch with your friends and don't be shy about calling someone for assistance.

One suggestion for maintaining contact was to have a periodic gathering at someone's home. Bob Mueller volunteered to host such a gathering at his house on January 5, 1991, starting at 1:00 p.m. Bob's address is shown above in the letterhead. His house is just off 82nd Ave, north of I-84. The main emphasis for this meeting is copying disks from the club library. Bob will maintain the disk library and other references for everyone's use.

Concerning the club's hardware, the members voted to give the external disk drive to Della Katon, the newest member. The monitor belongs to Bob Mueller. The CPU will be given to one of the members attending the gathering on Jan. 5 by drawing names from a hat.

The treasury contained approx. \$7.00. That amount covers the mailing cost for this newsletter. Thus, there is no money left to disburse.

The membership wants to express its gratitude to John Snyder for starting this club approx. 6 years ago. Many people have learned about their computers and have had enjoyable experiences with their use. Without clubs such as this, the world of computers will not reach the general public. Thank you, John!!!
