# T1200XE

TOSHIBA

T1200XE

The T1200XE combines low weight and handy dimensions with hard-working 286 performance. It's not much larger than an A4 file, but has the same power as most desktop computers. A 20 MB hard disk, user-friendly features, and stylish design are its hallmarks.

HARD WORKING

Now managers can use all their favourite applications while away from the office. Salesmen can streamline their work with sales automation software, getting instant access to all customer information and efficient order processing. Journalists can carry a whole library of reference works with them to help their writing. Add a modem, and the T1200XE can communicate with headquarters or tap resources available from on-line information services.

TOSHIBA DESIGN

Slim and sleek, the attractive new T1200XE is loaded with advanced features that enhance its usefulness. The 20 MB hard disk and 1-5 MB RAM give you enough memory capacity for all your programs and data. Toshiba AutoResume™ mode gives you a quick start, remembering where you were last working and saving your data automatically. Toshiba Hard RAM, a fast battery-backed disk in RAM, gives you additional storage space that saves power. At Toshiba, we don't force our users to adapt themselves to our computers. Just try the 84-key keyboard, for instance, and you'll understand the no-compromise philosophy that went into the design of the T1200XE. Look at the new sidelit screen, and you'll ask yourself why you ever considered another computer in this class.

SPECIFICATIONS

Processor
Intel 80C286™ microprocessor
Adjustable 12/6 MHz clock speed

Memory
1 MB RAM standard
5 MB RAM maximum
LIM-EMS 4.0

Storage
Internal 3.5" 1.44 MB/720 KB diskette drive
20 MB hard disk drive (25 msec)
Battery-backed Hard RAM for memory above 640 KB

Display
High-resolution sidelit Supertwist LCD
640 x 400 pixels
Brightness and contrast control
Size: 20.5 x 12.5 cm (7.9" x 4.9")

Graphics
Double-scan CGA
Toshiba graphics mode
(compatible with leading applications)

Keyboard
84 full-size sculptured keys
Familiar layout
12 function keys
Dedicated cursor keys
Integrated numeric keypad
Status LEDs

Interfaces
25-pin bidirectional parallel/external diskette drive port
9-pin RS-232C serial port
RGB colour monitor port
External numeric keypad port

Operating System
MS-DOS 4.01
MS-DOS 3.3 (option)

Power Supply
Autosensing 100-240V AC adapter for worldwide usage

Battery
High-density rechargeable NiCd
Removable
1.5-2 hours per charge

Dimensions
310 x 280 x 50 mm
12.2" x 11.0" x 2.0"

Weight
3.6 kg/7.9 lb (including battery)

Advanced Toshiba Features
Hard RAM
MaxTime™ Power Management
AutoResume™ Mode

Options
Carrying bag
Internal Hayes-compatible modem (where approved)
Two 2 MB memory expansion modules
