Controls and Lights: Dell™ Dimension™ 4100 System Reference

🔵 Front Panel

🔵 Back Panel

Front Panel

**1** Power button — Turns the computer on and off.

2 Power light — Lights up when the computer is on.

3 Floppy-drive access indicator — Lights up when the floppy drive is being accessed.

4 Reset button — Press this button for 1 to 4 seconds to initiate a hardware reset. To avoid possible data or file structure corruption, close as many open programs and files as possible before pressing the reset button.

5 Hard-drive access light — Lights up when a hard drive is being accessed.

Back Panel

1   Voltage selection switch — Selects the operating voltage for the computer.

2   Diagnostic code lights (4) — If a malfunction is detected and the computer fails to start, the lights display a code that identifies the problem.
